

MACHINE EVOLUTION STOPS HERE!

EVO
ROTARY

Machine features

- Compatible with any style needles, standard needles and tubes or cartridges
- Interchangeable stroke cams
- The lightest machine ever, lightweight at only 76 grams
- New cam system gives less vibration and increased torque
- The EVO will run on high quality power supply from min. 4V and max. 14V
- Optimal voltage for the machine is achieved between 7.5-10V
- 4.5 watt high performance engine

Maintenance

To extend the life of the machine, it is recommended to apply lubricant to the slider at least once a month, or when the machine begins to provide audible indication that the slider has become dry, and therefore causing additional friction.

Do not over-lubricate the machine as it may cause decreased slider performance.

Warranty

EVO Rotary offers a 1 year warranty on the motor and lifetime on the frame.

EVO Rotary guarantees that the rotary machine will perform efficiently when used correctly by a Professional Tattoo Artist.

For warranty claims, replacement of parts or general service, contact your authorized dealer.
